

THE  LABAMA SCHOOL OF MATH & SCIENCE

Brandon Ray • Systems Administrator • 1255 Dauphin St • Mobile, AL 36604 • 251.441.2153

*Established in 1989 by an act of the state legislature, the Alabama School of Mathematics and Science is a residential, public high school for sophomores, juniors, and seniors pursuing advanced studies in mathematics, science, and technology. With an advanced sequence of study in the sciences, mathematics, humanities, and liberal arts, the educational environment is enhanced by the availability of computers, modern laboratory facilities and independent research. The Alabama School of Mathematics & Science is a proud participant in the E-Rate funding program. This program has allowed us to use our budget to fund other technology needs by addressing the cost of internet access. Without E-Rate, those dollars being spent on the advancement of technology in the classroom would be consumed by the cost of internet access. We have come to rely on this funding and are grateful for its existence. The students of our school would be negatively impacted if this program were not in place.*
