

Dale County Schools

U.S. Congressman and U.S. Representatives,

E-rate funding has allowed all Dale County High Schools to offer courses of Spanish, Math, and Art. Without e-rate funding, classroom Internet resources would be a funding issue for our rural school system. During our years of financial restructuring, e-rate funding has enabled our budgets to continue Internet resources. We want to thank the Alabama Supercomputer for their support of Dale County School System through e-rate funding and thank the legislature for continuing this much needed resource.

Barbara Hurst
